DETAILED ACTION

Applicants' preliminary amendment, which included cancellation of claims 1-7 and 17-39, filed on 4/9/2004, is made of record. Claims 8-16 are pending.

Information Disclosure Statement

References cited in the Information Disclosure Statement filed on are made of record.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Following reasons apply. Any claim not specifically rejected is rejected as being dependent on a rejected claim.

1. Recitation of pharmaceutically acceptable salts in claim 1 and 12-15 renders these claims indefinite as it is not clear whether these claims are compound claims or composition claims containing several salts. Replacement of "salt" with "salt" is suggested.
2. Recitation of " is substituted amino" vague and unclear as to what is intended. Specification recites a definition of "substituted amino" as BNRR but there is no definition of B. Hence it is not clear what is included or excluded.
3. Species claims appear to include species which are outside the scope of the claim 1. See cyclohexyl or benzodiolin-6yl bearing species. In addition the claim

Art Unit: 1624

lacks consistency . Whereas claim 1 recites an alkyl mercapto group, the species recited includes methyl sulfanyl.

Allowable Subject Matter

Claims 8-16 would be allowable, barring finding of any prior art in a subsequent search, if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. Said claims would be allowed since specific compounds, composition and specific method of uses embraced in these claims are not taught or suggested by the art of record or from a search in the relevant art area.
